**781-891-9400**

**Technical support is incredible. Since we began using Rampage in 1999, there has not been an unsolved or unworkable situation that I can recall.**

When comparing Rampage to the other leading system, you'll probably see comparable entry costs. And while the systems may look different, if you compare them on a feature-by-feature basis, the actual differences are slight.

So scratch the surface—just a little—and ask about support contracts, upgrade fees, scalability, and other costs that can hit you—really hard—if you don't understand exactly what you're signing up for.

When you understand how we do business, you'll understand how more of your money can stay in your pocket.

### **Annual Maintenance: \$1,750**

Regardless of configuration size or product mix, your annual support contract is just \$1,750\*. Your maintenance contract is **FREE** for the first year.

### **A Helpdesk That Picks Up**

If you call 781-891-9400, a person will pick up the phone and pass you directly to our Helpdesk located in the USA. There are no complex procedures or dispatchers.

### **Meaningful Point Releases**

Self installable and **FREE** within a version, point releases include substantial functionality, not just bug fixes. Examples include CIP4 Inkzone Calculation, PDF Trap Engine, Transparency Support, and hundreds of other features.

### **Bundled Hardware Support**

In the USA, Rampage Workstations include a 3-year service plan administered directly by our support staff.

### **Affordable Version Upgrades**

Every two to three years, a new version of Rampage is offered. Cost history, per RIP/Shooter, is as follows:

- Version 8 to 9: \$3,000
- Version 9 to 10: \$3,000
- Version 10 to 11: \$4,000

### **Low-cost Scaleability**

The Threaded RIP Option adds a second RIP license to your system for \$5,000.

### **Turnkey Pricing**

Most Rampage functionality is built in. There are only a few options to consider and no complex pricing schemes with hidden costs.

### **No Per-seat Fees:**

- Rampage Client
- Integrated Trap Editor
- Softproof Viewer

### **Rampage Remote**

Sold for a flat fee, Rampage Remote has no restrictions based on number of users, functions, or transactional activity.

\*The annual renewal fee for RIP/Server configurations is \$2,000. Pricing is for USA only.
